About NIVAH

NIVAH stands for Network for International Vital Access to Healthcare. As a division of OGSD Group, we help organisations define their requirements and explore healthcare sourcing options across Namibia, Africa and international markets.

We work in strategic collaboration with Ridgepoint Sentinel Trading CC to review enquiries and coordinate suitable supply proposals against product specifications, quantity, destination and delivery needs.

How to use this catalogue

NIVAH provides international sourcing and supply coordination across all healthcare, veterinary and PPE categories presented in this catalogue. We help you find products that meet your specifications and quantities, subject to availability and the requirements of the destination country.

Medicines and clinical care

Pharmaceuticals, routine treatment, surgery and emergency requirements

H01 Pharmaceuticals and Medicines

Prescription and non-prescription medicines; tablets; capsules; oral liquids; creams and ointments; injectables; antibiotics; pain-management products; chronic-disease medicines; vitamins and selected supplements.

H02 Vaccines and Biological Products

Human vaccines and selected biological products, subject to destination-market requirements, cold-chain conditions and applicable authorisations.

H03 Medical Consumables and Disposables

Syringes; needles; cannulas; catheters; IV and infusion sets; tubing; specimen containers; swabs; cotton; clinical disposables and routine treatment supplies.

H04 Wound Care and Dressings

Gauze; bandages; adhesive dressings; medical tapes; sutures; wound-closure materials; burn-care products and advanced wound-care requirements.

H05 Surgical Instruments and Procedure Sets

General and specialist surgical instruments; reusable and disposable instruments; procedure trays; surgical sets and minor-procedure kits.

H06 Operating Theatre and Anaesthesia

Operating tables; surgical lighting; anaesthesia systems; suction units; electrosurgical equipment; theatre accessories and procedure-support equipment.

H07 Clinical Examination and Patient Monitoring

Stethoscopes; thermometers; blood-pressure monitors; pulse oximeters; medical scales; examination instruments and multiparameter patient-monitoring systems.

H08 Emergency, Ambulance and First Aid

Defibrillators; resuscitation equipment; trauma supplies; first-aid kits; stretchers; emergency bags and ambulance equipment.

Diagnostics and specialist equipment

Laboratory, imaging, critical care, dental, maternal and renal requirements

H09 Laboratory Equipment and Diagnostic Testing

Laboratory analysers; microscopes; centrifuges; reagents; rapid tests; specimen-collection supplies; pathology consumables and related laboratory equipment.

H10 Medical Imaging and Radiology

Ultrasound; X-ray systems; CT and MRI requirements; portable imaging; imaging accessories and related diagnostic equipment.

H11 Intensive Care, Respiratory and Oxygen

Ventilators; oxygen concentrators; respiratory-care accessories; infusion pumps; syringe pumps; suction systems and critical-care monitoring equipment.

H12 Dental and Oral Healthcare

Dental chairs and units; handpieces; instruments; dental imaging; restorative materials; sterilisation accessories and oral-care products.

H13 Maternal, Newborn and Paediatric Care

Delivery beds; foetal monitors; incubators; newborn warmers; phototherapy equipment; neonatal and paediatric consumables.

H14 Dialysis and Renal Care

Dialysis systems; dialysers; bloodlines; renal-care consumables and related water-treatment requirements.

Specialist care and patient support

Clinical departments, rehabilitation, long-term care and the patient environment

H15 Specialist Clinical Departments

Cardiology; oncology; neurology; gastroenterology; endoscopy; urology; dermatology and other specialist department equipment and consumables.

H16 Eye, Ear, Nose and Throat Care

Ophthalmic instruments; vision-testing equipment; hearing-assessment equipment; ENT examination instruments and related specialist products.

H17 Orthopaedics, Implants and Rehabilitation

Orthopaedic implants; braces; prosthetic requirements; wheelchairs; walking aids; physiotherapy and rehabilitation equipment.

H18 Homecare, Elderly and Long-Term Care

Home-monitoring equipment; adjustable beds; pressure-care mattresses; continence products and daily-living assistance products.

H19 Hospital and Clinic Furniture

Hospital beds; examination couches; bedside furniture; trolleys; cabinets; medical storage and treatment-room furniture.

H20 Clinical Textiles and Workwear

Hospital linen; patient garments; scrubs; clinical uniforms and selected reusable textile requirements.

Healthcare facilities and systems

Sterilisation, waste handling, transfusion supplies, storage and technical support

H21 Infection Prevention and Sterilisation

Autoclaves; instrument-cleaning systems; disinfectants; hand-hygiene products; sterile processing accessories and infection-control consumables.

H22 Healthcare Waste Management

Sharps containers; clinical-waste bins; waste bags; segregation products and selected healthcare-waste handling equipment.

H23 Blood Collection and Transfusion Supplies

Blood-collection bags; collection sets; testing supplies; storage equipment and transfusion consumables. Human blood itself is not offered through this catalogue.

H24 Medical Cold Chain and Storage

Medical refrigerators; freezers; vaccine carriers; insulated transport systems; temperature monitoring and secure medicine storage.

H25 Medical Gas and Facility Requirements

Medical gas accessories and selected facility requirements assessed with suitable specialists, subject to project scope and local requirements.

H26 Digital Health and Equipment Support

Healthcare software; selected digital systems; spare parts; installation coordination; maintenance support and training arrangements to be assessed with suitable specialists.

GLOBAL SUPPLY CHAINS FOR HEALTHIER TOMORROWS

Veterinary medicines and clinical care

Medicines, preventive care, treatment, diagnostics and veterinary equipment

V01 Veterinary Pharmaceuticals and Medicines

Veterinary tablets; oral solutions; injectables; topical treatments; anti-inflammatory products; antibiotics and other species-appropriate medicines.

V02 Veterinary Vaccines and Biological Products

Vaccines and selected biological products for animal-health programmes, subject to species, cold-chain and destination requirements.

V03 Parasite Control and Preventive Care

Deworming products; flea and tick control; ectoparasite and endoparasite products and selected preventive-health solutions.

V04 Veterinary Consumables and Wound Care

Syringes; needles; catheters; infusion sets; dressings; bandages; sutures; specimen-collection and routine treatment supplies.

V05 Veterinary Surgery and Operating Equipment

Veterinary surgical instruments; operating tables; procedure lighting; electrosurgical equipment; surgical sets and theatre accessories.

V06 Veterinary Anaesthesia, Emergency and Critical Care

Anaesthesia systems; patient monitoring; oxygen equipment; infusion pumps; resuscitation and patient-warming equipment.

V07 Veterinary Diagnostics and Laboratory

Veterinary analysers; diagnostic kits; microscopes; laboratory reagents; sample-collection and specimen-handling products.

V08 Veterinary Imaging and Examination

Ultrasound; X-ray; portable imaging; examination instruments; weighing equipment and related accessories.

V09 Veterinary Dental and Specialist Equipment

Dental instruments and units; dental imaging; ophthalmic instruments; endoscopy; orthopaedic and selected specialist equipment.

V10 Reproduction, Breeding and Newborn Care

Pregnancy-diagnosis equipment; artificial-insemination supplies; obstetric instruments and neonatal-care products.

Animal health applications

Species-specific requirements for companion animals, agriculture and specialist care

V11 Companion Animals

Medicines, preventive care, diagnostics, surgical and treatment products for dogs, cats and other companion animals.

V12 Livestock and Dairy

Cattle, sheep, goat and pig health products; treatment requirements; herd-health products and selected farm-use veterinary supplies.

V13 Poultry

Poultry-health products; preventive-care requirements; vaccination-related supplies; hygiene and biosecurity products.

V14 Equine

Medicines, diagnostics, wound care, rehabilitation and selected specialist products for horses and other equines.

V15 Aquaculture and Aquatic Animal Health

Selected aquatic-animal health products, diagnostics, treatment and biosecurity requirements, subject to species and market conditions.

V16 Wildlife, Zoo and Exotic Animals

Specialist veterinary requirements assessed on an enquiry basis, subject to suitable technical and supply options.

Veterinary facilities and support

Nutrition, recovery, animal handling, biosecurity, storage and technical support

V17 Animal Nutrition and Therapeutic Support

Veterinary diets; nutritional supplements; vitamins; minerals; electrolytes and selected therapeutic nutrition products.

V18 Veterinary Rehabilitation and Mobility

Rehabilitation products; braces; mobility aids and selected post-operative recovery equipment.

V19 Veterinary Facility and Handling Equipment

Examination tables; treatment stations; recovery cages; transport equipment and species-appropriate handling requirements.

V20 Veterinary Hygiene, Sterilisation and Biosecurity

Disinfectants; cleaning systems; instrument sterilisation; farm-entry hygiene products; waste containers and biosecurity supplies.

V21 Veterinary Cold Chain and Field Equipment

Medicine refrigerators; vaccine carriers; secure storage; temperature monitoring and portable field-care kits.

V22 Veterinary Digital and Equipment Support

Practice-management systems; diagnostic software; spare parts; installation, maintenance and training coordination where applicable.

PPE and professional protection

Medical, veterinary, laboratory, field and occupational protection requirements

P01 Hand Protection

Medical examination gloves; surgical gloves; laboratory gloves and task-specific protective gloves.

P02 Medical Masks and Respiratory Protection

Medical masks; respirators and associated filters or accessories selected according to intended application.

P03 Eye and Face Protection

Protective eyewear; goggles; face shields and related face-protection products.

P04 Protective Gowns, Aprons and Coveralls

Surgical gowns; isolation gowns; aprons; coveralls and selected protective garments.

P05 Head and Foot Protection

Protective hoods; head covers; shoe covers; protective boots and selected safety footwear.

P06 Laboratory and Veterinary PPE

Protective clothing and accessories suited to clinical, laboratory, veterinary and field-use environments.

P07 Specialist Hazard Protection

Radiation-protection garments; chemical-protection equipment and other task-specific products where required.

P08 Occupational and Industrial PPE

Safety helmets; high-visibility clothing; hearing protection; safety eyewear; gloves and protective footwear.

P09 PPE Packs and Protection Kits

Configured PPE packs for medical, veterinary, laboratory, field, emergency-response and selected occupational applications.

P10 Hygiene and Protection Support

Hand sanitisers; surface disinfectants; selected cleaning materials; hygiene packs and safety kits.

YOUR ENQUIRY

Requesting a quotation

Share a clear requirement so we can assess suitable products and supply options

INFORMATION TO INCLUDE

01 Product

Product name, category reference, active ingredient or intended application.

02 Specification

Preferred brand, technical details, strength, size, model, material or required standard.

03 Quantity

Required units and pack sizes, equipment quantities, or the volume of a repeat-order programme.

04 Destination

Country and delivery point, including any preferred Incoterm.

05 Documentation

Required product registrations, certificates, technical data or batch documentation.

06 Timing

Requested delivery date, project schedule or recurring supply requirements.

What happens next

We review your requirement, clarify any missing specifications and assess suitable supply options. Where an option is identified, we coordinate a proposal for your review.

Quotation details

The formal quotation sets out the offered manufacturer or brand, specification, quantity, pricing, minimum order requirements, lead time, delivery terms, validity and available supporting documents.

Supply remains subject to final confirmation and the applicable destination requirements. Cold-chain arrangements and specialist installation, maintenance or training are assessed where relevant to the enquiry.

A product is not listed

Send us the requirement. Additional healthcare, veterinary and protection categories can be assessed on request.

CONTACT AND COLLABORATION
